

Our Environmental Policy

Omexom provides construction and maintenance services to the infrastructure sector.

Omexom shall manage its regional operations and its field activities in a manner that will promote the protection of the environment and welfare of its employees, the general public and the broader community.

In particular Omexom is committed to:

- ▶ Providing the resources necessary to conduct business and operations in compliance with applicable environmental laws, regulations, standards and any other voluntary agreements that may be formally entered into.
- ▶ Holding management at all levels responsible for the environmental compliance of the activities under their control.
- ▶ Encouraging all business operations to conduct their activities in a manner that will avoid uncontrolled discharges to the environment, minimise the impact on the natural environment and the community from activities such as vegetation clearing and excavation, reduce the generation of waste, increase recycling and prevent pollution of the environment from both fixed sites and field operations.
- ▶ Ensuring that Omexom employees have concern for the overall environmental effects of their performance and exercise reasonable care in the execution of their duties by providing suitable operating procedures and training.
- ▶ Continually improving our systems and environmental performance by maintaining an Environmental Management System in accordance with ISO14000.
- ▶ Work towards achieving the targets and objectives outlined in SHE304 3 Year Health Safety and Environmental Strategy to evaluate our environmental performance and the implementation of effective environmental programmes to manage our environmental risks.
- ▶ Work within the guidance of the Vinci Environmental Ambition to contribute towards acting on the climate, optimizing resources through the circular economy and preserving natural environments and achieving the 2030 targets.

Tony Croagh
Omexom Australia Managing Director
