

Our Occupational Health Safety and Rehabilitation Policy

Omexom is committed to ensuring the safety and wellbeing of our employees and all those who may be affected by our activities.

We recognise that every employee is entitled to a working environment that is, as far as practicable, safe and without risk to health. Omexom also recognises the personal, social and business benefits of an effective rehabilitation program.

In particular, Omexom is committed to:

- ▶ Providing adequate resources to prevent accidents and to strive to continually improve occupational health, safety and rehabilitation.
- ▶ Work towards achieving the targets and objectives outlined in SHE304 3 Year Health Safety and Environment Strategy to ensure continued improvement aimed at eliminating work related injury and illness.
- ▶ Ensuring management at all levels are competent in health and safety management, understand their legal and moral obligations and regard health, safety and rehabilitation in the workplace as their highest priorities.
- ▶ Providing employees with adequate training, information and instruction on the hazards associated with their work and safe techniques for performing the job.
- ▶ Having every employee contribute to the important and responsible role of incident prevention.
- ▶ Providing safe plant, equipment and systems of work.
- ▶ Provide a mentally healthy workplace
- ▶ Ensuring compliance with legislative requirements and industry standards.
- ▶ Ensuring workplace rehabilitation is commenced as soon as practicable, in accordance with medical advice and the individual needs of the employee.
- ▶ Ensuring as far as practicable that suitable duties are made available to injured workers to facilitate their safe and early return to the workplace.
- ▶ Consultation with employees to ensure that Occupational Health Safety and Rehabilitation Plans, Policies and Procedures operate effectively.

Tony Croagh

Omexom Australia Managing Director
