

## Construction & Maintenance Services

Customer: **Powercor Australia & CitiPower**

Country: **Australia**

Site: **Melbourne metro/Western Victoria**

### PROJECT DESCRIPTION

Omexom has been consistently undertaking live line and de-energised construction and maintenance services on both the Powercor and CitiPower distribution networks since August 2000.

This initial agreement was successfully renewed and extended on a number of occasions with the latest contract agreement running to August 2023 with 1 year option.

The scope of work currently includes:

- Glove and Barrier and general line-worker resources/plant;
- Maintenance activities/pole and cross arm replacement;
- Metering and servicing activities;
- Customer initiated capital works/after hours availability

Copyright: Omexom

▶ Start date : **08/2000** - End date : **08/2023**

▶ Business units involved : **Omexom Australia Transmission and Distribution, Omexom**

### EXPERTISE

**Operation & maintenance :** Live line works ("glove and barrier" & "hot stick"), 24/7 fault repair and emergency response services
